

Snapshot of School Breakfast IN MICHIGAN

Over 87% of Michigan schools that offer school lunch also offer school breakfast.

While that seems impressive, **Michigan ranks 36th in the nation** for the number of schools that offer school breakfast

For every 10 students who eat school lunch, only 4 (43%) participate in school breakfast.

Not only is breakfast important to academics and health, but it can have an **economic benefit** for schools.

Michigan is losing available federal funding every day a student does not eat school breakfast.

If Michigan school were able to close the breakfast:lunch participation gap from 42.9% to 60%, as recommended by Former Michigan State Superintendent Flanagan, we would have had an estimated **\$22.9 million** in additional funding in 2012 alone.
